To consider the minutes of the last meeting held on 5<sup>th</sup> February 2026.

**4. Urgent Business Approved by Chair and Chief Fire Officer**

As part of the New Dimensions 2 programme for National Resilience, Merseyside Fire and Rescue Authority were asked by MHCLG to lease and procure a range of assets to assist in providing a specialist response to wildfires in anticipation of the upcoming wildfire season as part of an initial 12-month pilot.

Members will recall 6 Unimogs were leased as part of the 12-month pilot. The Unimog vehicles require 6 PODS to be manufactured and fitted to the Unimogs to provide the transport of firefighter equipment including water tanks to facilitate converting the vehicle into a firefighting response vehicle.

The original route to market for the provision of the bespoke PODS was to utilise a current contracting arrangement. Unfortunately, it became apparent that this option was no longer feasible, and Officers then explored alternative proposals that would still meet the strict deadline. Under the NEPO framework, a contract could be awarded to Lloyds Limited for the provision of the 6 PODS. This was identified as an option in

April 2026. It was confirmed that in order to meet the deadline to have the required assets available for the wildfire season, the contract for the manufacture and supply of the 6 PODS needed to be signed by the 14th April 2026.

The contract was to be awarded to Lloyd Limited for £355,100. As the value of the contract was in excess of £300,000 Members approval would be needed.

Due to the urgency of the matter, the award of the contract to Lloyd Limited for £355,100 was treated as urgent business under Standing Order 17 of the Authority's Constitution. As the time scales did not allow for the decision to be brought before a Committee, the Chief Fire Officer and the Chair of the Authority agreed to exercise their powers to discharge the decision-making function of the Authority in accordance with their powers under Standing Order 17.2 to approve the award of the contract to Lloyd Limited on behalf of the Authority.

The Chief and Chair agreed that given the original option to use current contracting arrangements were no longer feasible and alternative solutions were explored, the time frame to meet the critical deadlines for the pilot would not have allowed a report to be presented to Members for approval at the next scheduled committee meeting.

The Chair of the Authority asked for this matter to be brought to Members' attention at the next meeting of a Committee.

**16. Minutes of the Previous Meeting**

**RESOLVED** that the minutes of the last meeting held on 4<sup>th</sup> September 2025 be approved as an accurate record.

**17. Post Bonfire Update 2025**

Assistant Chief Fire Officer, Ged Sheridan, introduced the report noting the outstanding performance from Merseyside Fire and Rescue Service (MFRS) and their multi-agency partners regarding Operation Banger.

He drew Members’ attention to paragraphs 3 and 5 of the executive summary on pages 13 and 14 of the agenda. MFRS attended 123 deliberate secondary fires during the 2025 bonfire period which was a reduction of 234 incidents (65%) compared to the previous year. This was advised to be the lowest in recorded history of MFRS.

Members were directed to paragraph 24 on page 19 which showed that the 2025 bonfire period was a success in protecting the communities of Merseyside, the environment and members of the public, whilst keeping staff safe. It was noted that secondary incidents were reduced by 67.6% across the five local

authorities and overall bonfires were reduced by 54.5% across the five local authorities. Members were advised that tipper trucks collected over 80 tonnes of waste, which was 21.5 tonnes higher than the previous year.

Members noted that preparation for the 2026 period had started by looking at the forward planning considerations in paragraph 26, page 20. The focus for the next year for MFRS and partners would be to work more closely at a ward level by utilising street intervention teams, bonfire clearance plans, operational crews involved in high visibility patrols and local arson teams.

The Assistant Chief Fire Officer acknowledged that the approach could cause difficulties with some community groups, however, discussions and education sessions would take place earlier to prevent and minimise any tensions. It was advised that the advice given by MFRS, in combination with the position statement on bonfires, would be utilised to shape any submissions for the next year within the relevant safety advisory groups.

Councillor Mike Sullivan commended MFRS on the brilliant job they did over a difficult period, particularly on the Wirral. He raised concerns around the bonfires that took place on the Wirral in St James' and Woodchurch, noting the height and width of these pallet bonfires and he stated that these were set on fire early. He asked what could be done between now and 5<sup>th</sup> November to stop these fires from taking place again.

It was advised that processes could change this year through debriefs and education. In some areas, products were not put on site until the 5<sup>th</sup> November which caused a challenge to clear on the day, therefore tactics would change. Community events were seen as a positive for some people without realising the dangers to themselves, community members and nearby buildings and with further education it was hoped further progress could be made in 2026.

It was queried by Councillor Kieran Murphy whether the Authority was pursuing and prosecuting against those people who were building and lighting unlicensed and unregulated bonfires. The Assistant Chief Fire Officer advised that a different stance was approached during the last year, and he believed that people's views would evolve and change in terms of bonfires. It was noted that Fire, Police, local authorities and all enforcing agencies had a role to play to utilise their powers in a collaborative way, which had been demonstrated and been a success in the last year.

Councillor Les Byrom reassured Members that incidents were decreasing due to scrutinising the statistics.

Councillor Chris Page gave thanks to everybody who worked on this report. He advised that those at Sefton were trying to identify the source of pallets used for bonfires and suggested.

Councillor Lynn O'Keeffe acknowledged that the number of incidents had reduced greatly and wondered if the severity of incidents had also reduced and this was confirmed as true, for example, there was a reduction in Violence at Work against crews. The Assistant Chief Fire Officer advised that the tactics

and policy statement and investment in body worn cameras had seen a reduction in the severity which was a positive outcome.

Members' attention was drawn to paragraph 5.2 on page 29 and Councillor Jan Grace queried whether derelict buildings meant specifically old industrial buildings or houses too. The Assistant Chief Fire Officer noted that this was any derelict building. He added that this was due to visibility by staff and highlighting this to agencies to ensure these buildings were secured better.

**RESOLVED** that:

- a) the contents of the report including pre-bonfire events and performance be noted; and
- b) the forward planning proposals for 2026 be noted.

**18. ND2 Procurement - HVP Hose**

Chief Fire Officer, Nick Searle, introduced the report noting that the Authority was the Lead Authority for National Resilience and were purchasing equipment on behalf of the Ministry of Housing, Communities and Local Government (MHCLG).

The Chief Fire Officer advised that part of the national capability provided assets for High Volume Pumps (HVP) flood response.

A mini competition was held under the YPO framework for Emergency Response and Rescue Equipment and four suppliers responded to the invitation to tender and two were invited to equipment trials, following which the preferred bidder was selected.

Councillor Kieran Murphy queried whether this money would come out of this current financial year's budget or the next year's budget. The Chief Fire Officer confirmed that MHCLG gave the Authority a specific pool of funds to be used to purchase equipment for National Resilience and that money had to be spent in the current financial year.

**RESOLVED** that:

- a) the contents of the report be noted; and
- b) the award of the contract to Mandals AS, at a total cost of £886,580 be approved.

**19. ND2 Procurement - Prime Movers**

The report was introduced by Chief Fire Officer, Nick Searle. He acknowledged that National Resilience provided assets for Urban Search And Rescue (USAR) and High Volume Pump (HVP) operations.

The Chief Fire Officer explained that the framework for the procurement of Acquisition and Conversion Heavy Good and Specialist Vehicles was identified as a route to market which met the Authority's requirements. Members noted that a competition was held under the framework and received nine bids for the tender. A full evaluation was undertaken and eStar Truck and Van Limited were identified as the preferred bidder.

Councillor Les Byrom queried whether the Authority would own the vehicles. Monitoring Officer, Ria Groves, advised that as the Authority was the contracted party, they would own the vehicles, with the concept to loan them out to other Fire and Rescue Services long term.

**RESOLVED** that:

- a) the contents of the report be noted; and
- b) the award of the contract to eStar Truck and Van Limited for 81 Prime Mover vehicles, at a total cost of £13,365,000 be approved.

<b>APPENDICES:</b>	<b>APPENDIX A:</b>	<b>PEOPLE PLAN 2024-27</b>
	<b>APPENDIX B:</b>	<b>PEOPLE PLAN ACTION PLAN</b>

### Purpose of Report

1. To update Members on progress against the actions outlined in the People Plan 2024-27.

### Recommendation

2. It is recommended that Members note the positive progress made against the actions outlined within the plan.

### Introduction and Background

3. The Fire & Rescue National Framework for England (2018) outlines how each Fire & Rescue Authority should have in place a People Strategy designed in collaboration with the workforce and covering a number of specific key themes.
4. Merseyside Fire and Rescue Authority ('the Authority') discharge this requirement via the development of a strategic level People Plan spanning a three-year period. Our current plan (Appendix A), was approved by Members at the Authority meeting on 17<sup>th</sup> June 2024, covering the period 1 July 2024 until 30<sup>th</sup> June 2027.
5. The People Plan 2024-27, the Community Risk Management Plan (CRMP) and the Medium-Term Financial Plan (MTFP) sit alongside and complement each other providing the key strategic building blocks that allow us to achieve our organisational vision: **To be the Best Fire & Rescue Service in the UK; One Team putting its communities first.** Together these three plans detail how, in

the medium term, we will achieve our strategic ambitions and how we will measure our progress and success.

6. The People Plan 2024-27 was created to enable us to improve the working lives and experiences of all our people whilst protecting our community. The Plan recognises that our people are pivotal in all that we set out to do and it is only by investing in them, that we can be successful in keeping our community safe, whilst enabling everyone who works for us to reach their full potential.
7. The Plan seeks to harness the passion and unwavering commitment of our staff to the people they serve, making Merseyside a safe place to live and Merseyside Fire and Rescue Authority a great place to work.
8. The Plan embraces the organisational commitment to promoting equality, diversity and inclusion to ensure that the workplace is fair and diverse in all aspects.
9. A key aspect of the plan is the creation and maintenance of a positive and professional workforce culture that will mean our people feel listened to, appreciated and psychologically safe, making Merseyside Fire and Rescue Authority an employer of choice.
10. The People Plan is built upon five key linked themes. These are:
  - **Attract and retain the best people;**
  - **Develop exceptional people and leaders;**
  - **Promote a holistic approach to health and wellbeing;**
  - **Deliver sector leading organisational performance;**
  - **Embed equality, diversity and inclusion as part of strong positive culture.**
11. Under each theme are a number of key actions from which officers have created a 3-year action plan to deliver the necessary changes.
12. As many of the actions are owned by the People & Organisational Development (POD) Directorate, Members have previously received updates on People Plan actions as part of the regular update provided in the POD Functional Plan as part of the quarterly Service Delivery plan update.
13. Members received an update at the Community Safety & Protection Committee on 4<sup>th</sup> September 2025 which covered progress during year one of the three-year plan.
14. Appendix B provides an update of the progress against actions at the mid-point of year two of the plan (31<sup>st</sup> December 2025).
15. The headline 26 actions across the five themes have been sub divided into 63 sub actions for delivery.

16. As of 31<sup>st</sup> December 2025 (mid-point year 2), 23 sub actions are complete (37%) which is an increase from 15 (24%) in the previous update report. A further 36 are in progress (57%) and 4 have not commenced yet (6%). All actions remain scheduled to be completed during the three-year lifecycle of the plan.
17. A key action within the People Plan related to the development of a Cultural Action Plan (CAP). The CAP has been created and agreed by the Culture & Inclusion Board and complements many of the actions within the People Plan.
18. The CAP also incorporates all fifteen actions outlined within the 2024 HMICFRS Report “*Standards of behaviour: The handling of misconduct in fire and rescue services*”.
19. Governance of the Culture Action Plan is undertaken by the Culture & Inclusion Board and officers presented an update to the Scrutiny Committee on 18<sup>th</sup> September 2025.

### **Future Developments**

20. Work on the development of a new People Plan covering the period 2027-2030 will commence in 2026 aligned with the development timetable for the new CRMP 2027-30.

# Introduction & background

**I am proud to introduce our new People Plan for 2024-27, which importantly has been developed for our people, with our people. The plan sets out our drive to harness the passion and unswerving commitment of our own people to the people they serve. Its introduction will undoubtedly improve the safety of our communities, whilst improving the working lives and experiences of our own teams.**

**Ultimately making Merseyside a safe place to live and Merseyside Fire and Rescue Service a great place to work.**

The People Plan, the Community Risk Management Plan (CRMP) and the Medium-Term Financial Plan (MTFP) complement each other and provide the key strategic building blocks that allow us to achieve our purpose to protect our communities and keep them safe. Together these three plans detail how we will achieve our strategic ambitions and how we will measure our progress.

Our people are pivotal in all that we set out to do and we know it is only by investing in them and creating a sense of purpose and belonging that we can deliver our vision whilst allowing our staff to reach their full potential.

The People Plan is our vehicle to deliver this ambition and it is built upon five key but interlinked themes.

These are, **attract and retain the best people, develop exceptional people**

**and leaders, promote a holistic approach to health and wellbeing, deliver sector leading organisational performance and embed equality, diversity and inclusion as part of strong positive culture.**

The success of the plan will depend upon us working together to meet the aspirations detailed under each theme.

The plan can only be successful if we all work together and that is why the document makes clear the expectations and responsibilities that are placed on all of us to ensure that the aspirations in the plan are met. The plan also sets out the opportunities for everyone to develop, progress and feel part of the team.

This plan fully embraces our commitment to promoting equality, diversity and inclusion to ensure that the workplace is fair and diverse

in all aspects. It is essential that we celebrate our diversity and we create an environment where everyone feels included, valued and able to speak up.

A key aspect of the plan is the creation and maintenance of a positive and professional workforce culture that will mean our people feel listened to, appreciated and psychologically safe, making Merseyside Fire and Rescue Service an employer of choice.

It is of the utmost importance to recognise that we are an organisation that must be driven and inspired by a shared set of values and behaviours, one which is happy to hold itself to account.

With your help this plan will further embed our values, strengthen our already positive culture which in turn will help us to meet the aspirations and deliver the outcomes set out in the plan.

In this people plan I want us to move away from warm words to deliver tangible outcomes for our people and our communities.

I want us to genuinely hold ourselves to account.

I want our leaders to lead by example, have a strong team focus and presence with a genuine interest in people.

I want us to do the right thing not the easy thing, I want us all to be accountable for our actions and take responsibility for them.

I don't want us to measure ourselves on the performance of others I want us to create our own culture, one which instils a real sense of belonging.

To do this we need to be committed to participation, open to learn, driven by equality and fairness and open to differing views. I want us to celebrate difference, challenge poor behaviour and to be accepting when we get some things wrong – this way we will truly create a place where people belong.

We know that this requires leadership at all levels and the part we each play has never been more important.

Be our future.

# Core Code of Ethics

Fire and rescue services are required to operate within a national Core Code of Ethics. For Merseyside Fire and Rescue Authority, these are embedded into our Leadership Message, behavioural Ground Rules and Employee Code of Conduct. They are at the heart of what we are as an organisation and shape how our people behave in work and in our communities.

## Our Leadership Message & Leadership Behaviours

Our Leadership Message, a co-creation with our staff, brings together the Core Code of Ethics with our own Vision, Purpose, Aims and organisational values. It sets out for every member of the team why we are here and how we will approach delivering 'our service' to the public.

To strengthen our approach, we have also outlined the leadership behaviours which aim to assist colleagues understand their role, highlighting both the **'WHAT'** and the **'HOW'** in terms of expected leadership behaviours.

The Core Code sets out five ethical principles, based on the Seven Principles of Public Life, which alongside the accompanying guidance provides a basis for promoting good behaviour and challenging inappropriate behaviour:

- **Putting our communities first** – we put the interest of the public, the community and service users first.
- **Integrity** – we act with integrity including being open, honest and consistent in everything we do.
- **Dignity and respect** - making decisions objectively based on evidence, without discrimination or bias.
- **Leadership** – we are all positive role models, always demonstrating flexibility and resilient leadership. We are all accountable for everything we do and challenge all behaviour that falls short of the highest standards.
- **Equality, diversity, and inclusion (EDI)** – We continually recognise and promote the value of EDI both within the FRSs and the wider communities in which we serve. We stand against all forms of discrimination, create equal opportunities, promote equality, foster good relations, and celebrate difference.

## Leadership Behaviours - The What!

Mirroring the National Leadership Framework, and linking to the Leadership Message we have developed four key themes to outline what leadership looks like at every level and what good leadership looks like in our respective roles:

- **Personal impact**
- **Outstanding leadership**
- **Service delivery**
- **Organisational effectiveness**

## Leadership Behaviours - The How!

Under each of the four themes outlined we are then able to set expectations at the four leadership levels within the service, clearly defining the behaviours we are seeking to develop in our leaders. This provides a simple framework that sets the standard for those performing at the following levels:

- **Leading yourself (everyone)**
- **Leading others (supervisory managers)**
- **Leading the function (middle managers)**
- **Leading the service (strategic managers)**

This creates an effective development pathway to support individuals with aspirations to develop their careers. Our leadership behaviours inform our leadership development programmes and are embedded in selection processes at all levels.

# Equality, Diversity & Inclusion

We are committed to equality, diversity and inclusion in relation to our staff and to the services we deliver to our communities. Treating people fairly is a priority of course, but being aware of equality, diversity and inclusion is also important because it means we can tailor our services to meet what people need from us and we can also work to make sure that our staff reflect the people they serve.

Our organisational culture is also very important to us, and we are very aware of the poor behaviour that has occurred in other fire and rescue services. We work hard to make sure the culture in Merseyside is positive and inclusive and we've updated our objectives to reflect that commitment. Our Equality, Diversity and Inclusion Objectives have been reviewed and refreshed to reflect our aims for 2024-27. They are:

- Create a strong Inclusive organisation that is positive to rising to the future challenges we face.
- Ensure that people from diverse communities receive equitable services that meet their needs.
- Reducing fires and other incidents amongst vulnerable people in the protected groups and deprived areas.
- To continue to strengthen the Service's cultural competence based on lived experience and community insight so that all staff can undertake their role recognising the value of difference. (This strengthens our approach to equality, diversity and inclusion, meaning our staff are well equipped to engage with our diverse communities and are sensitive to their needs).
- To continue to aspire for equality, diversity and inclusion excellence, measuring ourselves against best practice and benchmarking tools within the Fire and Rescue Service and other sectors.

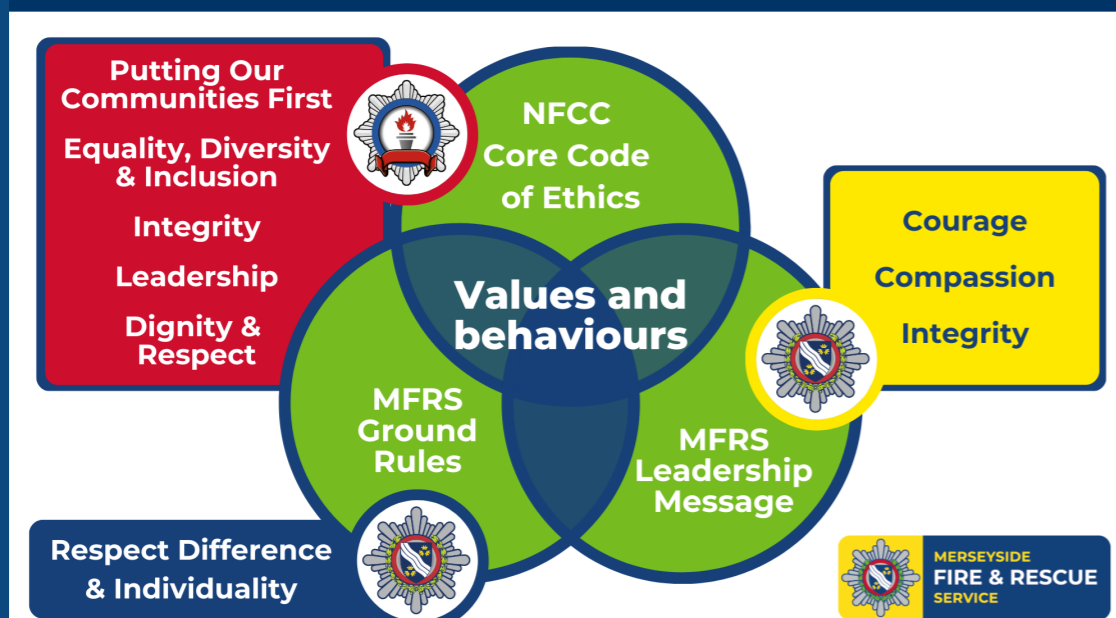

You can find our full Equality Diversity and Inclusion Action Plan [here](#).

## Alignment of Leadership, Values and Behaviours

Bringing these documents and expectations together we can see how the above elements are linked and combine to create our overall framework for Leadership, Values and Behaviours.

We want to truly reflect the communities we serve and to do so we will carry on embedding equality, diversity and inclusion and with the help of our staff networks we have revised our Objectives to better reflect where we are now and what we want to do next.

## HMICFRS

MFRS was inspected in 2023 by His Majesty's Inspectorate of Constabulary and Fire & Rescue Services (HMICFRS). As part of the inspection process our approach to our People is inspected under four thematic headings:

- Promoting the right values and culture
- Getting the right people with the right skills
- Ensuring fairness and diversity
- Managing performance and developing leaders

The report showed real positives including how HMICRS found the values and culture of the Service to be well defined, and behaviour of staff reflected those values. Senior leaders were found to act as role models, and staff reported that they have direct conversations with leaders and feel that they are listened to.

In addition, health and well-being of staff was found to be important to the Service, with staff telling inspectors they are supported in different ways to promote their physical and mental health. A culture of continuous improvement is promoted throughout the organisation and learning is co-ordinated and well managed resulting in well trained and competent staff.

There were a number of areas where HMICFRS felt further improvements could be made and this People Plan reflects these with appropriate actions included based on the HMICFRS recommendations. For ease under each of our five themes within this People Plan we have shown the direct links to the HMICFRS inspection themes.

The full HMICFRS inspection report and those of the other fire and rescue services inspected so far are available on the HMICFRS website [here](#).

## Deliver sector leading organisational performance

**We all have a responsibility ensure that all those experiencing distress, anxiety and worry are heard and that our people are confident to speak to others to seek help over their own mental health and well-being as well as on behalf of their colleagues.**

#### What are you expected to do?

- We must all take the time to consider and reflect on our performance and review the learning and training opportunities on offer as a basis for taking responsibility for our own development and support organisational performance.
- We must always be open to new ways of learning and different approaches that improve efficiency and effectiveness.
- We all have responsibility to familiarize ourselves with the policies and service instructions as required by our role and fully engage with training opportunities.
- We should engage positively and constructively with all performance reviews including appraisals.
- We must recognise good performance from our colleagues and ensure that this is acknowledged and noted.
- Performance feedback delivered positively is always a good thing and should be embraced, welcomed and acted upon.
- Constructive criticism should always be encouraged. There will always be opportunities for doing things better.

#### The benefits for the Service and for us all

- We will be recognised as a high performing organisation that will attract the best talent and provide the most job satisfaction.

# Embed equality, diversity & inclusion as part of a strong positive organisational culture

## Equality Diversity and Inclusion

Creating a diverse and inclusive workforce is key to success in creating a place where everyone's uniqueness is respected and celebrated. This plan builds upon recognising the organisational benefits that accrue from a diverse workforce (including diversity of thought) where everyone can feel comfortable and part of a team that values and acknowledges their contribution and value.

Building a diverse workforce means that we more fully reflect the communities we serve. This visibility is important as it builds community confidence in us as an organisation allowing us to more fully access all parts of the community in our work to keep people safe.

Creating a diverse workforce at all levels means we can utilise the skills and perspectives of all our people to improve our decision making and better meet the needs of a diverse community. As our diversity increases this will help us attract and retain more talent from different background and with different characteristics.

We must ensure that the principles of equality, diversity and inclusion are fully incorporated into all our ways of working. This in turn lead to a more professional, engaged and motivated workforce that is better able to serve our community. We expect all colleagues to show kindness and respect to each other.

We will continue to work to remove any barriers that could disadvantage people and/ groups that have different needs, whilst continuing to maintain organisational standards, to reward merit and to promote equality of opportunity for all.

We will continue to work to fulfil our duties under the Equality Act to:

- Eliminate discrimination, harassment and victimisation and any other conduct that is prohibited by or under the Equality Act 2010
- Advance equality of opportunity between people who share a relevant protected characteristic and people who do not share it
- Foster good relations between people who share a relevant protected characteristic and those who do not share it.

We will work with local community and voluntary groups in support of embedding an inclusive culture and to support our learning and understanding of the communities we serve

## A strong positive culture

HMICFRS defines values as principles or standards of behaviour and culture as ideas, customs and behaviour. It also defines 'poor', 'unacceptable' and 'inappropriate' culture as those which have the potential to negatively affect others. These behaviours can include but are not limited to bullying, harassment and discrimination.

This People Plan will build upon the recommendations of the HMICFRS report on Values and Culture in fire and rescue services. The Service will implement all of these recommendations as a basis for improving culture and reduce the risks posed by poor, unacceptable and inappropriate culture both to the individual, the Service and our communities.

We can never be complacent about culture or assume that we are immune from problems, and we must go further to realise our ambitions to establish a strong positive culture built upon ensuring the psychological safety of all colleagues where all feel included, valued and able to speak freely. We are already responding to what we have heard and the recommendations of the HMICFRS and we will capture those responses in our cultural action plan whilst listening to the views of our own teams on our culture.

To support our ambition, we intend to introduce an independent Chair of our Culture and Inclusion Board.

The actions under this theme are fully informed by both the findings of the 2023 inspection conducted by HMICFRS; and the relevant Fire Standards Board, National Fire Standard.

### **HMICFRS inspection areas:**

- Promoting the right values and culture
- Ensuring fairness and promoting diversity

### **National Fire Standard areas:**

- Leading and Developing People
- Leading the Service
- Core Code of Ethics
- Communication and Engagement
- Data Management

- Develop our cultural competence by making connections in our communities, engaging with groups representing diverse people and places and providing advice to staff on how to engage with confidence.

# Embed equality, diversity and inclusion as part of a strong positive organisational culture

**Together we are all responsible for making sure that all voices are heard that people understand that their talents are valued, and we always take account of everyone's needs.**

## What are you expected to do?

- We should always take the time to properly connect with each other.
- We should always take the time to ensure that everyone has their say and encourage and value diverse and different views.
- We should always treat everyone with dignity and respect even when we disagree with a viewpoint or a decision.
- We should always champion diversity and inclusion by encouraging and allowing everyone to contribute to the organisational conversation.

We should all provide our diversity data when requested to help the Service meet its diversity and inclusion goals.

- We should always feel free to raise concerns on our own behalf or for others when that is appropriate.

## The benefits for the Service and for us all

- We can all speak up with confidence knowing we will be heard and supported.
- Everyone can bring their best and true selves to the workplace, and we can all benefit from being part of a diverse team.
- We will gain from all the benefits accrued from working with colleagues from a range of backgrounds and experiences.
- We will be able to provide an open and inclusive work environment where everyone will find a place and can do well regardless of their background.
- We will ensure that all our policies, processes and practices are delivered fairly and consistently.

# Measuring Delivery and Success

The actions captured under our five themes will help us continue to build on the excellent work already delivered under our People Strategy 2017-2020, and our People Plan 2021-2024.

To ensure we succeed we will monitor and measure the delivery of actions outlined in the plan. The People & Organisational Development team will take the lead, collaborating with individual action owners as necessary to deliver and embed changes. The plan is intended to be a dynamic and living document, and we will amend and adapt it if necessary subject to changing circumstances.

However, it's important that this plan is not simply seen as a document for People & Organisational Development. The People Plan is intended as a document that all colleagues can use to understand our people priorities and the final document is reflective of the comments received during our consultation with staff, representative bodies and staff networks.

Formal governance and monitoring of the People Plan will be carried out by the People Board with bi-annual updates provided to members.
