9. This report focuses on the Benchmark Performance Indicators underpinned by the key and local performance indicators to illustrate and inform as required.
10. The format has been designed to give a clear illustration of how the Service is performing against Key Performance Indicators which are grouped together e.g. dwelling fire related indicators are influenced by the Community Risk Management measures we put in place so this group includes measurement of the number of Home Fire Safety Checks and Safe and Well visits we deliver especially to those most at risk, which we have recognised are the over 65's.
11. The performance indicators are monitored and scrutinised each month through the Performance Management Group which is an internal meetings of relevant managers, the Strategic Leadership Team and Strategy and Performance Board. Exceptions and areas of poor performance are highlighted and action plans put into place as appropriate.
12. All performance for August to November 2018 is covered in detail in the appendices to this report.
