Author of Equality Impact Analysis	Anthony Holland	Equality Analysis quality assured by (Member of the POD team)	Vicky Campbell

The purpose of undertaking an equality impact analysis and assessment is to understand the potential and/or actual impact that a service or policy may have on protected groups within the Equality Act (2010). The protected groups are:

- Age
- Disability
- Gender reassignment
- Marriage and civil partnership
- Pregnancy and maternity
- Race
- Religion and / or belief
- Sex (gender)
- Sexual orientation
- Socio-economic disadvantage (Although not one of the 9 protected groups MFRA recognise that Socio-economic disadvantage affects many deprived communities within Merseyside.)

People who are protected from discrimination on the basis of any of these characteristics are described in this document as belonging to one or other “protected group”. In addition, equality analysis can be applied to groups of people not afforded protection by the Equality Act, but who often face disadvantage and stigma in life in general and when trying to access services & employment opportunities. Such groups include homeless people, sex workers, people who misuse drugs and other groups who experience socio economic disadvantage & others. This

template has been developed following consultation with staff and other external stakeholders including reference to the National Fire Chiefs Councils (NFCC) [equality impact assessment toolkit](#) as well as the [Maturity Models and Workforce Good Practice Frameworks](#) developed by the NFCC which MFRS will use to underpin EIAs as wider work on improvement.

## Impact Analysis

1	<p><b>What evidence have you used to think about any potential impact on particular groups?</b> (Please highlight any evidence that you have considered to help you address what the potential impact may be)</p> <p><b>Example evidence:</b></p> <ul style="list-style-type: none"> <li>• ONS Census data</li> <li>• Regional or local demographic information</li> <li>• MFRS reports &amp; data</li> <li>• NFCC Reports/Guidance</li> <li>• Home office/Local government Reports</li> <li>• Risk Assessments</li> <li>• Staff survey results</li> <li>• Research / epidemiology studies</li> <li>• Updates to legislation</li> <li>• Engagement records or analysis</li> </ul> <p><b>NFCC Equality of Access documents</b> – We encourage you to click on the following <a href="#">link</a> to access a series of ‘equality of access documents’, developed by the National Fire Service Council (NFCC) &amp; reference the data and information highlighted.</p> <p>Some aspects of these documents will help you provide information, awareness, and data to support:</p> <ul style="list-style-type: none"> <li>• Integrated Risk Management Plans</li> </ul>	<p>The key proposals of the project are listed below and are the basis of the completion of this EIA.</p> <p>The purpose of this EIA is to review information and intelligence available at an early stage in the development of options for the Newton LLAR Project. It is intended that the EIA can be used to help inform decisions as the options progress and will help Principal Officers and Authority Members to understand equality related impacts on the decisions being made in relation to local diverse communities.</p> <p>The EIA will be a living document, which will develop further during the project stages. This initial EIA will provide an opportunity to plan ahead for various activities such as community and staff consultation and equality data gathering.</p> <p>The EIA will be conducted in a number of stages:</p> <p>Stage 1 - Desk Top Assessment</p> <p>A desktop assessment has been completed in order to consider ED&amp;I implications for this initial draft.</p> <p>Stage 2 - Consultation (Internal &amp; external): MFRS Reports (SLT &amp; Authority Meetings).</p> <ul style="list-style-type: none"> <li>• The scheme has gone through a formal planning process and we have successfully achieved full planning approval from St Helens Council.</li> <li>• Consultation with the local residents will have taken place via the formal planning process.</li> <li>• Once approved MFRS and the main contractor will consult further with the local residents to inform them of the proposed start date.</li> </ul>

- Service delivery strategies
- Positive action and recruitment plans
- Workforce improvement plans
- Community engagement activities
- and, will prompt conversations within the workplace.

Each document provides a significant amount of data and information, including research undertaken and risk-based evidence, and then goes into some ideas for actions which Services can use based on the information and their individual circumstances

### Stage 3 – Details of the proposals

#### EQUALITY IMPACT

The proposals set out in the project are considered at this time to have a positive impact for both staff and communities.

- The new LLAR House has been designed with the needs of the Fire Service in mind, the building will be more energy efficient, it will include a modern and adaptable heating system, PV'S (solar panels) will be installed to provide added energy efficiency and a reduction in electrical consumption.
- The new build will be designed in accordance with equality legislation and building regulations to ensure they are fit for purpose, fully accessible to end users and visitors alike.
  - Accessible off road parking will be provided to front of the house for staff and visitors.
  - The property consists of 5 double bedrooms with en-suite facilities which allows for staff and visitor privacy, all areas are modern and gender neutral.
  - The ground floor bedroom & en-suite will be DDA compliant. (Disability (Discrimination Act 1995).
  - The kitchen and stand-alone ground floor WC will be accessible (DDA compliant) and will be available for all users.
  - A rear garden for staff and family members will be provided to assist with wellbeing and mental health.
  - A shared living room facility is provided for staff and family members to use when on stand down.
- The proposed LLAR house is to be constructed directly adjacent to the existing fire station with gated access to allow ease of access for operational staff. The location of the proposed LLAR facility will help reduce the time taken for staff to be recalled back to the station, and allows staff to be situated in one LLAR property rather than the two currently in use.
