

# 19 - Croxteth Community Fire Station

## Community Risk Management Plan 2024-25

| Operational Preparedness   | Operational Response  | Prevention and Protection  | People  |
|--|---|--|---|
| <p>We will:</p> <p>Plan and prepare exercises at against our USAR and MTA capabilities at MFRS's new state of the art training centre</p> <p>Complete all SSRI inspections on premises within station area to ensure that key risk information is available to operational crews.</p> <p>Complete all allocated hydrant inspections</p> <p>Maintain core competencies by attending scheduled training at the Training and Development Academy.</p> <p>Measure and confirm competencies against Learnpro and SPA.</p> <p>Train to maintain all competencies against USAR (Urban Search and Rescue), MTA (Marauding Terrorist Attack) &amp; technical rescue skills</p> <p>Conduct training exercises across Merseyside to further develop technical rescue skills</p> <p>Plan, prepare and exercise against identified risks within the station area. Particular attention will be paid to the top 12 risks identified.</p> | <p>We will:</p> <p>Ensure all aspects of operational response can be conducted safely in line with the training planner &amp; assess against national &amp; local policy, guidance and procedures</p> <p>Maintain core skills through completion of Safe Person Assessments and theoretical learning</p> <p>Maintain 95% standard for alert to mobile within 1.9 minutes &amp; attendance standard, attending all life risk within 10 minutes.</p> <p>Promote a positive Health &amp; Safety culture to manage Health &amp; Safety requirements</p> <p>Maintain appliance and equipment to maintain operational readiness</p> <p>Conduct routine testing and maintenance of equipment</p> <p>Ensure response times are effectively met and measure performance on PIP's</p> | <p>Together we will:</p> <p>Deliver HFSC's on a risk based approach utilising status reports, local knowledge, incident data &amp; partner information to identify specifically the over 65's and the most vulnerable groups in our community</p> <p>Support local and seasonal campaigns such as Winter Warm, High Rise or Older Persons day</p> <p>Engage with Businesses surrounding our new state of the art Fire station and carry out simple Operational Fire Safety Assessments (SOFSA) to provide advice and guidance to small businesses to ensure compliance with legislation &amp; familiarise crews</p> <p>Utilise PIP's to target and identify areas of anti-social behaviour &amp; waste material build up to reduce ASB fires</p> <p>Collate &amp; monitor Equality data from our activities to ensure we target all groups within the community</p> <p>Look to support community based initiatives by use of the community impact fund</p> | <p>At Croxteth we will:</p> <p>Work together and support each other to maintain excellent wellbeing and mental health during and after the pandemic.</p> <p>Use the appraisal process to promote personal development by setting realistic aims &amp; objectives to support individuals and team</p> <p>Identify &amp; support individuals who would like to develop/progress their careers &amp; ensure suitable opportunities are created</p> <p>Provide support for development firefighters via mentorship, structured training &amp; development activities</p> <p>Continue to maintain existing USAR/MTA/Technical Rescue skills &amp; help to support the development of newer team members</p> <p>Maintain fitness levels through shift related physical training activities</p> <p>Manage health, safety &amp; well-being of personnel &amp; ensure that levels of absence, accidents &amp; injuries are in line with Service policy</p> |

# 19 - Croxteth Community Fire Station

## Community Risk Management Plan 2024-25

**Our Vision:** To be the best Fire and Rescue Service in the UK – One team putting its communities first.

**Our Purpose:** Here to Serve. Here to Protect. Here to keep you safe.

**Our Aims:** To Protect, Prevent, Prepare and Respond

**OUTCOMES** are the impact our actions have on the community such as reducing incidents.

**OUTPUTS** are the quantifiable things we deliver to achieve better outcomes for the communities we serve.

|                                    | Estimated Performance 2023/24 | Estimated Targets 2024/25* |  | Annual Target** 2024/25 |
|------------------------------------|-------------------------------|----------------------------|--|-------------------------|
| All Fires                          | 239                           |                            | Site Specific Risk Information (SSRIs)             |                         |
| All Primary Fires                  | 57                            |                            | Home Fire Safety Checks                            |                         |
| Accidental Dwelling Fires (ADFs)   | 24                            |                            | HFSC's delivered to over 65's (60% of HFSC target) |                         |
| Deliberate Vehicle Fires           | 6                             |                            | Hydrant Surveys                                    |                         |
| All Secondary Fires                | 182                           |                            | Waste & Fly Tipping                                |                         |
| Anti-Social Behaviour Fires (ASBs) | 84                            |                            | Prevention talks                                   |                         |
| AFAs in Non-Domestic Premises      | 3                             |                            | Simple Operational Fire Safety Assessments         |                         |
| % ADF No Smoke Alarm               | 85%                           |                            | Off Station Exercising                             |                         |
| Alert to Mobile                    | 97.8%                         | 95%                        | Community Events                                   |                         |

The targets are based on 5 years performance data.

\*Targets for 24/25 will be added in March

\*\* 2024/25 targets to be added – highlighted are 23/24 targets

We aim by the delivery of these outcomes to achieve reductions in death and injuries in our communities
